Sumit Pavasiya

Frontend Developer · React · Next.js

Surat, Gujarat, India · +91 97140 51182 · pavasiyasumit@gmail.com · linkedin.com/in/pavasiya-sumit-0863bb281

SUMMARY

Frontend developer with 1+ year of experience building live production websites with React, Next.js and Tailwind CSS at Happy Pet Tech, where I moved from intern to full-time developer in 3 months. In my own time I built a multiplayer 3D browser game and my own portfolio website. Looking for a Frontend Developer role where I can build fast, responsive web apps with React and Next.js.

EXPERIENCE

Frontend Developer — Happy Pet Tech, Surat — Sep 2025 – Nov 2026

- Built the whole happypet.care website, the Happy Pet site for pet parents, in Next.js and Tailwind CSS — every page, the blog and the pet breed guides.
- Contributed to happypet.tech, the Happy Pet Tech company website, building its pages and UI.

Frontend Developer Intern — Happy Pet Tech, Surat — Jul 2025 – Sep 2025

- Started working on the live production website within 2 months, building UI pages with HTML5, JavaScript and Tailwind CSS.
- Offered a full-time Frontend Developer role at the end of the 3-month internship.

PROJECTS

City Life 3D — 3d-gmae.vercel.app — 2026

- Open-world 3D city game that runs in the browser on desktop and phones, built with React 19, TypeScript, Three.js (React Three Fiber), Rapier physics and Zustand.
- Up to 16 players share one city over a Node.js WebSocket server, with chat and paid races; code splitting lets the menu load before the 2 MB physics engine.

Portfolio Website — 3d-portfolio-beta-mauve.vercel.app — 2026

- Personal portfolio built with Next.js 16, TypeScript and Tailwind CSS, with a live 3D city scene made in React Three Fiber.
- Light and dark themes, responsive down to phone width, and exported as a fast static site.

SKILLS

Languages	JavaScript, TypeScript, HTML5, CSS3, C, C++
